TECHNICAL SKILLS

Languages
C · C++ · Java · JavaScript · TypeScript · SQL

Frontend
React.js · Vite · Tailwind CSS · HTML5 · CSS3

Backend
Node.js · NestJS · Express.js · TypeORM · RESTful APIs · JWT Authentication

Databases & Search
PostgreSQL · MySQL · MongoDB · Elasticsearch

Cloud & DevOps
AWS EC2 · Docker · GitHub Actions (CI/CD) · PM2 · Vercel · Git · GitHub · Postman · Salesforce

Integrations
Razorpay · Twilio · Firebase Cloud Messaging

Talmeez Akhtar

Full Stack Developer

PROFILE

Full Stack Developer with hands-on experience building and deploying production web applications using Node.js, NestJS, TypeScript, React.js, and PostgreSQL/MySQL. Experienced in RESTful APIs, payment systems, authentication, Elasticsearch-powered search, and Dockerized CI/CD deployments. Strong foundation in Data Structures and Algorithms; passionate about clean, production-ready code.

EXPERIENCE

Node.js Backend Developer Intern — Mar 2026 – Jun 2026
TTSIT (Startup) — *Remote*

- Built the vendor and customer backends for the Mummas Kitchen app in Node.js/NestJS and MySQL, owning REST APIs, payments, and production deployment.

Software Developer Intern – Carrefour App — Dec 2025 – Jan 2026
Majid Al Futtaim — *Gurugram, India*

- Worked on the Carrefour e-commerce app, contributing to product search and discovery features powered by Elasticsearch.
- Tuned index mappings, analyzers, and queries (full-text, filters, aggregations) for faster, more relevant search.

Salesforce Trainee – Digital Nurture Program (DNP) 2.0 — 2025
Cognizant — *India*

- Selected for Cognizant's DNP 2.0 Salesforce training; trained in Salesforce data modeling, Apex, and Lightning, and received a full-time offer letter on completion.

PROJECTS

Bunakar – Rug Design Studio | React, NestJS, TypeScript, PostgreSQL, Docker — Live Demo

- Built a full-stack rug design studio where users design custom rugs through tile-based and freeform editors, inspired by Mirzapur's carpet industry.
- Implemented real-room previews using perspective homography, mapping rug designs onto room photos so customers see the result before ordering.
- Built export of production-ready tufting templates, ready for manufacturing.
- Secured the NestJS API with JWT auth and rate-limited endpoints; shipped a Dockerized, CI-tested deployment via GitHub Actions.

Mummas – Food Marketplace | NestJS, MySQL, React, AWS — GitHub

- Owned a two-sided marketplace end to end: NestJS/TypeORM backend with JWT auth and REST APIs, plus a React/Vite admin dashboard with Leaflet maps.
- Engineered the payment layer: Razorpay wallet top-ups, split-payment checkout, a vendor earnings ledger, and tiered vendor subscriptions (Free/Standard/Premium).
- Integrated Twilio OTP and Firebase push notifications; deployed to production on AWS EC2 with PM2.

EDUCATION

RCC Institute of Information Technology — Sep 2021 – 2025
B.Tech in Information Technology (CGPA: 8.78) — *Kolkata, West Bengal*

Daffodils Public School — 2020 – 2021
AISSCE (Class XII) – 83.6% — *Mirzapur, Uttar Pradesh*

Daffodils Public School — 2018 – 2019
AISSE (Class X) – 84.8% — *Mirzapur, Uttar Pradesh*
